MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management of Rockingdeals Circular Economy Limited is pleased to present its analysis report on the performance and future outlook of your company.

Global Economics Review

The baseline forecast is for the world economy to continue growing at 3.2 percent during 2024 and 2025, at the same pace as in 2023. A slight acceleration for advanced economies—where growth is expected to rise from 1.6 percent in 2023 to 1.7 percent in 2024 and 1.8 percent in 2025—will be offset by a modest slowdown in emerging market and developing economies from 4.3 percent in 2023 to 4.2 percent in both 2024 and 2025. The forecast for global growth five years from now—at 3.1 percent—is at its lowest in decades. Global inflation is forecast to decline steadily, from 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025, with advanced economies returning to their inflation targets sooner than emerging market and developing economies. Core inflation is generally projected to decline more gradually.

The global economy has been surprisingly resilient, despite significant central bank interest rate hikes to restore price stability. Changes in mortgage and housing markets over the prepandemic decade of low interest rates moderated the near-term impact of policy rate hikes. focus is on medium-term prospects and shows that the lower predicted growth in output per person stems, notably, from persistent structural frictions preventing capital and labor from moving to productive firms. It further indicates how dimmer prospects for growth in China and other large emerging market economies will weigh on trading partners.

Indian Economy

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. ₹173.82 lakh crore in FY2023-24, which is an 8.2% increase from 2022-2023. This is higher than the 7% growth rate in 2022-2023, and is attributed to a 7.8% expansion in the fourth quarter of 2023-2024. India's nominal GDP (GDP at current prices) is estimated to be ₹295.36 lakh crore in 2023-2024, which is a 9.6% increase from 2022-2023.

India is the third-largest unicorn base in the world with over 83 unicorns collectively valued at US\$ 277.77 billion, as per the Economic Survey.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to a shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass the USA to become the second-largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by Price Water house Coopers.

INDUSTRY STRUCTURE AND DEVELOPMENT

Re-commerce

India's Recommerce Sector, the practice of selling previously owned products, is thriving due to a blend of environmental, technological, and socio-economic factors. People are more environmentally conscious now, as seen in initiatives like Patagonia's Worn Wear program, where used items are traded, refurbished, and resold, aligning with the broader sustainability trend. The circular economy is gaining traction. Consumer attitudes are shifting too, especially among younger generations who favor thrift shopping and vintage finds, reflecting a preference for sustainable and unique choices. Economically, recommerce offers budget-friendly options.

Brands are also engaging in recommerce to maintain customer loyalty; Apple's Certified Refurbished program is a prime example. Regulatory efforts, particularly in the EU, are pushing companies towards sustainable practices. The scope of recommerce is expanding, as seen in REI's inclusion of diverse outdoor gear.

All these factors combine to make recommerce a thriving sector, driven by a collective move towards more sustainable, affordable, and technologically facilitated consumer practices.

The global recommerce market is projected to reach **a staggering \$355 billion by 2025**, representing a 21% annual growth. Millennials and Gen Z are the leading forces, **with 64% of Gen Z preferring** to buy pre-owned clothing. Online platforms are facilitating this growth, boasting millions of active users.

The recommerce market is poised for continued exponential growth, driven by rising consumer awareness, technological advancements, and innovative business models.

OPPORTUNITIES AND THREATS

Opportunities.

- As the middle class grows and internet penetration increases, re-commerce platforms can expand into emerging markets like India. Consumers are looking for more affordable alternatives to new products.
- Re-commerce can create jobs in areas like marketing, customer service, logistics, and technical inspection. The skill sets needed for these roles may combine elements from retail and e-commerce.
- Re-commerce can help businesses save resources, reduce environmental impact, and lower production costs. For example, second-hand clothing sales are growing three times faster than new clothing sales, which can contribute to sustainability and circularity
- Technology has helped formalize the re-commerce industry, making it more mainstream. For example, technology can improve search using AI, enable reverse logistics for used products, and increase product visibility with augmented reality and virtual reality.

Threats & challenges

- Pricing recommerce goods can be tricky, often leading to thin profit margins. Without a standardized manufacturing process, determining an item's market value can be elusive, usually boiling down to "it's worth what someone will pay."

Considerations like the time spent acquiring an item, company overhead, and procurement costs all factor into pricing, making it a complex equation for many businesses.

- Consumer confidence in recommerce products hinges on authenticity. Electronics need to work flawlessly, and clothing must be genuine, not knockoffs.

While third-party authentication services exist, they add time and cut into margins. Ensuring that a Louis Vuitton purse is truly Louis Vuitton or that Levi's jeans are genuinely Levi's can be a cumbersome process for businesses.

- As the recommerce sector has grown, it has attracted attention from major enterprises. This influx has made the market more crowded, posing a challenge for new businesses trying to break in and compete with these established brands.

RISK AND CONCERN

The Company has robust risk management procedures to identify and evaluate risks on an ongoing basis. The Company believes that risks that are well managed can create opportunities, whereas risks that are incorrectly managed could lead to financial and reputation loss. Appropriate steps are taken in consultations with all concerned to mitigate such risks. The following are some of the key risks as perceived by the Company:

➤ Availability of Labour

The ability to retain existing talent and attract new talent assumes crucial importance. The industry is growing at a fast pace, in a highly labour intensive sector and demand for experienced and trained manpower is outstripping supply. The company is also aggressively taking steps to monitor and improve productivity, which will mitigate the impact of labour and material cost increases to some extent.

➤ Economic Uncertainty:

Slow economic growth in the international or national economies and uncertainties regarding future economic prospects, among other things, could affect consumer discretionary spending and therefore can impact business. Through brand strengthening and expanding presence across the globe the Company endeavours to mitigate the impact of this risk as far as possible.

OUTLOOK

The future of the re-commerce market appears promising domestically as well as globally. In anticipation of growing demand, the company has substantially expanded its installed capacity. Enhancing our presence in additional region will enable us to reach out to a larger population. Further, our Company

believes in maintain long term relationship with our customers by adding value through innovations, quality assurance and timely delivery of our products which will ultimately enhance our sales. - B) As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - (ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
 - (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - (iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - (v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation
- C) Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.
- D) We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E) We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- F) From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT
(Referred to in Para 2(f) under ‘Report on Other legal and Regulatory Requirements’ section of
our report of even date)**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143
of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of M/s **Rockingdeals Circular Economy Limited** (“the Company”) as of March 31, 2024, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that are operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that We comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial

controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.
